FORENSIC FATAL ELECTROCUTION INVESTIGATION

Brosz and Associates Consulting Forensic Engineers are pleased to announce the successful conclusion of a civil lawsuit on behalf of the Defendant, an electrical manufacturer.

The lawsuit was launched against the manufacturer by the Plaintiff, the widow of an electrician who was electrocuted while testing electrical apparatus.

The original claim was in excess of \$2,000,000.00 for Wrongful Death.

Brosz and Associates provided Investigative and Forensic Engineering Services for the defendant's lawyers and contributed to a substantial reduction in the claim. The claim was settled halfway through the trial for \$350,000.00.
