## **FIRE ALARM VERIFICATION**

We are pleased to announce the successful completion of over 150 Fire Alarm Verification projects.

Working in conjunction with the electrical contractor, the Engineering staff at Brosz and Associates has been providing independent testing and inspection of fire alarm systems across Ontario and Canada for over 10 years.

All devices are tested and inspected to current ULC Standards and compliance with the consultants' specifications is verified. Our company has performed inspections within schools, industries, hospitals, and government facilities. We have worked on a variety of fire alarm systems from all of the major manufacturers, from simple panels to the most advanced computerized installations.

We can provide quotations via the telephone or fax.
